

Nice and bright and will stand out.

**Suggestions:**

Make the info lines break according to logic and readability

Make the image bigger

Put the name of the company by itself, in larger type (all the type could be bigger)

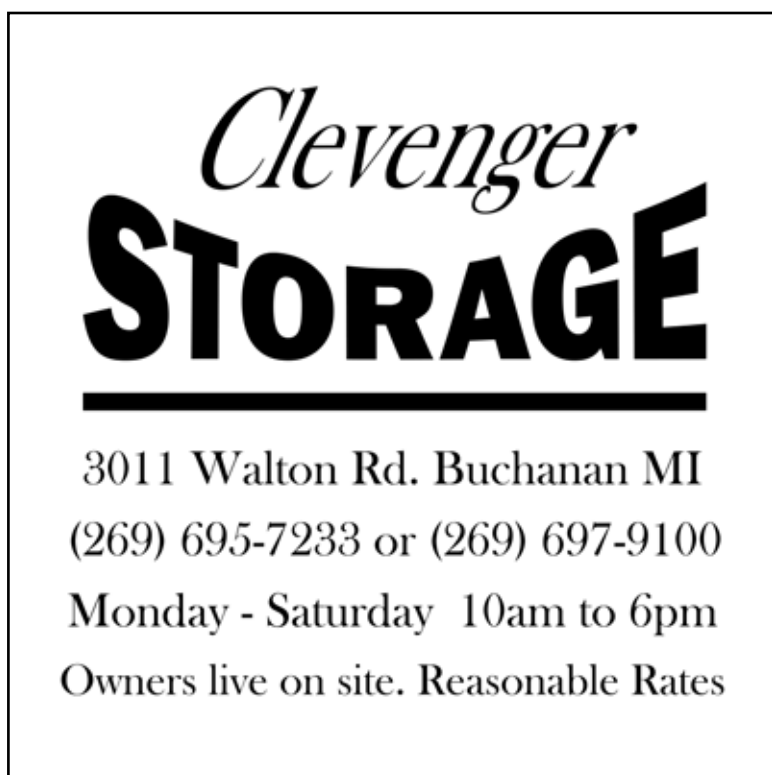

Very creative and would be fun to use as a promo for *The Paper!*

**Suggestions:**

It would certainly draw the reader in...

Clevenger Storage might think it's *too* creative...

Break up the headline lines better- no hyphens, etc.

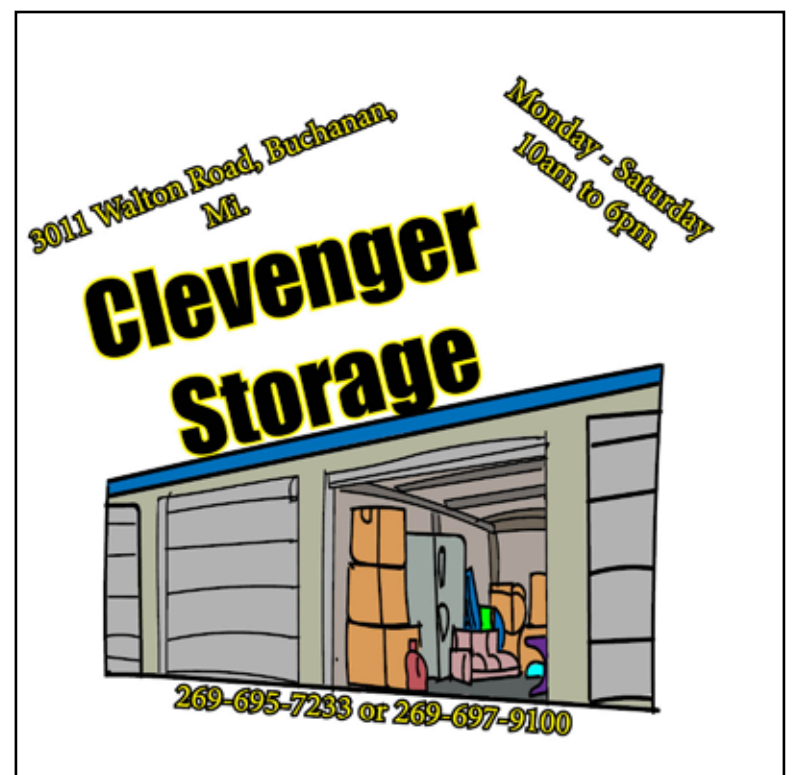

Classy, tasteful, nice use of typography ...all the info is there and lined-up well

**Suggestions:**

a faint background of the storage place?

We use full color, but sometimes a b/w ad is a nice contrast.

Really nice image...original, or clip art?

**Suggestions:**

the type at an angle is good, but needs to be used in a better way...tighten it up...maybe put Clevenger Storage on a single line?

Missing some key information...
