Course Textbooks: Adobe Illustrator, Photoshop, Dreamweaver, InDesign & Flash CC
Adobe Revealed CC Textbooks by Cengage

Course Description:

Five incredibly creative pieces of software from Adobe will be used to generate illustrations, enhance and modify graphics (and photography), and combine all elements to create newsletters, brochures, flyers, webpages and animation! Adobe Illustrator is used to generate graphics and design. Adobe Photoshop is used to alter and modify digital photography. Adobe InDesign is used to generate a variety of publications. Adobe Flash is used to generate animation. Adobe Dreamweaver is used for website design and creation. Students will touch on each of these software programs using the Creative Cloud package. Students have a 2 hour block devoted to helping them prepare for the potential to have a career in Web & Design.

Course Objective:

This program will help to develop graphic art skills, publishing skills, web design and animation skills and photographic altering skills. It will teach online safety and security strategies, and help prepare you to adapt to the constantly changing technology. We have 6 key objectives:

1. Creativity and Innovation - demonstrate creative thinking, construct knowledge, and develop innovative products and processes using technology
2. Communication and Collaboration - use digital media and environments to communicate and work collaboratively, including at a distance, to support individual learning and contribute to the learning of others.
3. Research and Information Fluency - apply digital tools to gather, evaluate, and use information.
4. Critical Thinking, Problem Solving, and Decision Making - use critical thinking skills to plan and conduct, research, manage projects, solve problems, and make informed decisions using appropriate digital tools and resources.
5. Digital Citizenship - understand human, cultural, and societal issues related to technology, and practice legal and ethical behavior.
6. Technology Operations and Concepts - demonstrate a sound understanding of technology concepts, systems, and operations.

Instructional Philosophy:

Coursework will be completed using a combination of methods. We will learn through lecture and discussion, group work, workbooks, independent projects, and journaling. We will also be using a lot of hands on learning to practice skills discussed in class. Students are expected to participate in all methods of learning in order to get the most out of class.

Student Assessment:

Students will be evaluated in a variety of ways in order to encourage all styles of learning.

Tests

Quizzes

Class Activities

Portfolios

Resumes

Presentations

Entrepreneur Project

Daily Procedures:

All assignments must be completed during the class period. All books must stay in the classroom (textbooks may not be taken home).

Absolutely no food, drinks, or gum allowed in the classroom.

Textbooks remain in the classroom and therefore Quizzes and Tests must be completed on the day they are assigned.

NO CELL PHONES

Grading Expectations:

All grades earned are cumulative for the term. The grading scale will be as follows

90-100	A
80-89	B
70-79	C
60-69	D

The weighting of grades will be as follows:

Final	20%
Projects	40%
Tests/Quizzes	20%
Daily Work	20%

Late Work:

When making up assignments you have ONE week to make up that assignment. Assignments after one week will only be eligible to receive 75% credit of the grade the assignment earned. If your absence is unexcused; you will receive no credit for the assignment. For tests, you have ONE school day for each day missed to make up the test. Failure to make up work goes into the grade into the grade book as 0%. It is your responsibility to schedule a time to make up your test.

Cheating Policy:

Cheating or plagiarism will result in a zero on that assignment or test.
